

Stellar Phoenix Macintosh Data Recovery 4.0 now supports Snow Leopard

Published on 09/05/09

Stellar Information Systems Limited announces that its Mac data recovery software now supports Snow Leopard. Stellar Phoenix Macintosh Data Recovery 4.0 can recover lost data from Snow Leopard systems that have encountered volume corruption, accidental file deletion, disk reformatting or file system corruption. The free demo version of the product is available for download at Stellar's website.

Gurgaon, India - Stellar Information Systems Limited, the leading providers of advanced data recovery software and services, announces that its Mac data recovery software now supports Snow Leopard-the latest release of Mac OS X family of operating systems. Stellar Phoenix Macintosh Data Recovery v4.0 can recover lost data from Snow Leopard (Mac OS X v10.6) systems that have encountered volume corruption, accidental file deletion, disk reformatting or file system corruption. The free demo version of the product is available for download at Stellar's website.

"By improving our Mac data recovery product, we are taking proactive measures to make sure that Mac users have effective data recovery solutions against any data loss disaster on a Snow Leopard system. The product has been successfully recovering lost data from Panther, Tiger and Leopard.

With this breakthrough development in its recovery capabilities, we ensure our customers a completely reliable and comprehensive data recovery solution for their Desktop and Server systems running Mac OS X v10.6." said Sunil Chandna, Stellar Information Systems CEO. "Stellar Phoenix Macintosh Data Recovery v4.0 is now available with Snow Leopard support and several reworked features."

Key Features of Stellar Phoenix Macintosh Data Recovery v4.0:

- * Supports Mac OS X 10.6 Snow Leopard
- * Supports Mac OS X 10.3.9, 10.4 Tiger, 10.5 Leopard
- * Recovers lost, deleted and missing data
- * Compatible with HFS, HFS, HFSX, HFS Wrapper and FAT file systems

Pricing and Availability:

The single-user download edition of Stellar Phoenix Macintosh Data Recovery v4.0 is available at affordable price of \$99 (USD). Technician and Administrator licenses are also available at amazingly lower prices (check Stellar's website for details).
