

## **BeWeather 2 now available on iPad**

Published on 02/17/15

Bellshare Inc today announces BeWeather 2.1, an update to its popular weather app for iOS, Android, BlackBerry and Windows Phone. BeWeather provides comprehensive weather information, packaged in a beautiful, easy to use app and widget that is fully customizable. Easily receive detailed current conditions, 24-hour and 7-day forecasts, with minute-to-minute rain forecast predictions. BeWeather 2.1 is now an Universal app available for both iPhone and iPad.

Fort Lauderdale, Florida - Bellshare Inc today is proud to announce the release of BeWeather 2.1, an update to its iPhone weather app. BeWeather 2.1 is now an Universal app available for both iPhone and iPad. BeWeather is also available for Android, BlackBerry and Windows Phone. BeWeather provides comprehensive weather information, packaged in a beautiful, easy to use app and widget that is fully customizable.

New in version 2.1:

- \* BeWeather now runs on iPad
- \* We have added access to webcams from all over the world
- \* The daily forecast now shows a lo/hi temperature range indicator
- \* We made some minor overall changes to the user interface
- \* The location selector and last updated widget sections are now optional like all the other sections
- \* The daily forecast now shows amount of snow instead of precipitation if snow is forecasted
- \* Many bug fixes

BeWeather features:

- \* Detailed current conditions, 24-hour and 7-day forecasts powered by Weather Underground
- \* Minute-to-minute rain forecast predictions powered by Forecast, makers of the Dark Sky app
- \* Powerful weather maps with animated radar (USA, Canada and Europe), satellite, storm and hurricane trackers
- \* Realtime notifications for severe weather alerts (USA and Europe)
- \* View thousands of weather webcams from all over the world

Today Widget:

- \* Quick access to your weather, even from the lock screen
- \* Shows as much or as little information as you like
- \* Access to multiple locations

Device Requirements:

- \* iPhone, iPad, and iPod touch
- \* Optimized for iPhone 5, iPhone 6/6 Plus and iPad Air
- \* Requires iOS 8.0 or later
- \* Universal Application
- \* 5.3 MB

Pricing and Availability:

BeWeather 2 (v2.1.42) is available worldwide exclusively through the App Store in the Weather category for \$2.99 (USD).
