

Macgo Recommended A Powerful Blu-ray Drive for Its Blu-ray Player

Published on 03/12/15

Macgo is now recommending a powerful Blu-ray drive that works well with its Blu-ray Player. One of the requirements of playing a Blu-ray disc on the computer is to have a Blu-ray drive first. The recommended Blu-ray Writer/Burner is one the thinnest and lightest external optical disc drive on the market. It includes the support of USB 3.0, BDXL, 3D Blu-ray Movies, and burning BD, DVD & CD. Plus the Macgo Blu-ray Player and the recommended Blu-ray drive combos are now for sale with free shipping.

Hong Kong - Macgo, the first innovator that makes Blu-ray finally supportable on Mac OS by developing the first and foremost Blu-ray Player for Apple Mac, has recently established its collaboration with a Blu-ray drive manufacturer. As we all know that one of the requirements of playing a Blu-ray disc on the computer is to have a Blu-ray drive first, and now Macgo is recommending this powerful Blu-ray drive that works well with its products to all Blu-ray fans. This recommended Blu-ray Writer/Burner is one the thinnest and lightest external optical disc drive on the market with the support of USB 3.0, BDXL, 3D Blu-ray Movies, and burning BD, DVD & CD.

Main Features of Macgo Recommended Blu-ray Drive:

- * Supports USB 3.0: High-speed I/O, up to 5 Gbit/s transfer rate, 10 times faster than USB 2.0
- * BDXL Readable: Supports the latest Blu-ray format - BDXL 100GB and 128GB disc
- * Plays 3D Blu-Ray Movies: Enjoy 3D feast at your home (Proper setup such as 3D TV/Monitor and glasses is required to utilize 3D from Blu-Ray disc.)
- * Burns BD, DVD & CD: With the USB 3.0 capability, this writer-burner is able to burn Blu-Ray discs at up to 6x, DVD discs at up to 8x and CD discs at up to 24x.

Macgo has taken great strides to make who it is today. As a powerful competitor in Blu-ray industry, there is no doubt that Macgo is an innovator, yet it's still finding ways to perfect its products. Until today, Macgo Blu-ray Player can support Blu-ray Disc, Blu-ray ISO files, Blu-ray Menu(Mac only), and BDMV folder with up to 1080p high-definition video quality and DTS 5.1 stereo output. Plus multimedia formats like .MP4, .MOV, .AVI, and .FLV can be played on it for free. It also developed a unique hardware acceleration technology "BluFast MX" that brings better running performance of Macgo Blu-ray Player. Its AirX function makes audio and video files sharable between computers and iOS devices.

To better operate Macgo Blu-ray Player, users can follow these steps to play Blu-ray discs on their computer with Macgo Recommended Blu-ray Drive: Launch Macgo Blu-ray Player on your computer > Connect Blu-ray Drive and the computer via USB 3.0 > Insert a Blu-ray disc into Blu-ray Drive. Then wait for the program to automatically recognize and play the Blu-ray disc.
