

Weather 365 days: Free year-ahead weather forecast app for iPhone, iPad

Published on 03/13/15

Elecont LLC today announces Weather 365, the brand new and free long range weather forecast app available for iPhone and iPad. Featuring unique visualization, Weather 365 provides a weather outlook and sea surface temperatures for up to the next 365 days to help you choose a date and plan for a wedding, trip, home improvement project or special event in your life. Weather 365 - one step ahead of the weather. Check the weather. Choose your destinations wisely.

Saint-Petersburg, Russian Federation - Elecont LLC today is excited to announce the launch of their new Weather 365, a free iOS application for iPhone and iPad. Based on an original idea Weather 365 presents its information in an amazingly intuitive format, with a simple, user-friendly interface and single-touch access to weather trends, ranging from a single day to a year. Don't let the weather interfere with your plans - now you can have the knowledge of what the weather will be so you can plan accordingly.

Weather 365 provides free access to archive of global historical weather, climate data and sea-surface temperatures. Using original visualization the app provides all important weather-data at a glance - sun, clouds, rain, snow, local weather extremes and records, holiday weather, day/night temperatures, sky conditions, probability of precipitations and temperature of water at cities and beaches along the Mediterranean, Atlantic, Gulf, Pacific coasts of United States and other popular destinations and resorts.

Are you planning a trip, a tour, a sailing trip or other activities for which you require weather-information? Planning a trip next summer? Traveling through the US, Europe or Asia to places you have never been to? Organizing your daughter's wedding next year? Scheduling an important outdoor event? Weather 365 is a free planning tool for iPhone and iPad that provides long range weather forecasts based on a historical weather data.

Features:

- * Avoid the cyclone season
- * Choose the best destination & best time to visit
- * Find a good place & time for snorkelling, with warm sea temperatures
- * View climate information to decide which is the best time of year for you to go for a trip
- * Are you planning a trip or an event such as a wedding? Get a "typical" weather for almost any place in the world over a range of dates.

Weather 365 - one step ahead of the weather! Check the weather. Choose your destinations wisely.
