

## **U&Me Messenger emerges as a Fast & Secure alternative to other chat apps**

Published on 03/19/15

U&Me Messenger has emerged itself as a powerful alternative to the famous instant messaging applications used by the people today. The app is one of the fastest messengers, for the amount of features it provides. It also uses in-app security lock to protect the private data of the user by implementing advanced encryption techniques to provide utmost data security. Plus, the file sharing limit of 100 MB has made U&Me Messenger beat the other apps easily.

Malaysia, India - U&Me Messenger has emerged itself as a powerful alternative to the famous instant messaging applications used by the people today. The success of U&Me can be attributed to its rich UI, new features and customization. With the latest update 1.3.31 for Android, the app has taken mobile chat experience to a brand new level.

**Benefits Of U&Me Messenger Over Other Mobile Chat Apps:**

So, you must be thinking, what is special with U&Me Messenger that made it a better alternative for other chat applications? U&Me Messenger is one of the fastest messengers, for the amount of features it provides. While the other chat apps with fewer features than U&Me cannot compete with the speed at which U&Me works. This is one of the reasons U&Me has achieved such a large user base within a few months after its launch. Also, security is one of the unique qualities of U&Me Messenger, as the app provides in-app security lock to protect the private data of the user. In addition, this app implements advanced encryption techniques to provide utmost data security. Also, the file sharing limit of 100 MB has made U&Me beat the other apps easily.

In addition, there are some other benefits that U&Me brings which are really interesting. The first one is, U&Me is available for a diverse range of mobile platforms with significant performance over all of them. So, users can communicate with each other without bothering about the mobile platform they are using. The integration of cloud-based storage accounts such as Dropbox, One drive and Google Drive has taken U&Me app to the whole new level. U&Me is the first one to introduce cloud-based storage accounts integration to chat application in the consumer app market.

**Key Features:**

- \* Instant delivery notifications (Write, sent, delivered & received)
- \* Supports multiple file formats (audio, image, MS office documents, PDF and real-time location)
- \* Integration with social media accounts (LinkedIn, Facebook, Google , Twitter etc.)
- \* Third-party cloud storage services integration (Microsoft One Drive, Dropbox, Google Drive etc.)
