

Navmii - Free Sat Nav App Gets Even Better

Published on 03/31/15

Navmii, the best free navigation app on earth, has been redesigned to offer a host of new features. Navmii users can now log every single mile they drive, recording the lengths of journeys, driving duration and average speed. It also provides real time traffic data, road hazards and events such as accidents or closures. Navmii allocates a driver score that rewards good driving with an improved ranking, enabling Navmii drivers to compete for a coveted place on the best driver leaderboard.

Cupertino, California - Navmii, the best free navigation app on earth, has been redesigned to offer a host of new features. Navmii users can now log every single mile they drive, recording the lengths of journeys, driving duration and average speed. Navmii allocates a driver score that rewards good driving with an improved ranking, enabling Navmii drivers to compete for a coveted place on the best driver leaderboard.

Navmii (formerly known as NavFree) is a fully functioning sat nav app for iPhone and Android that is already being used by more than 23 million people. Providing all the functionality and more that you would expect from a standalone navigation device, Navmii sits on your smartphone or tablet as an app. Best of all it's completely free to download and use.

New features include:

- * An improved user interface that makes it even easier to navigate to destinations
- * Free real time traffic data, road hazards and events such as accidents or closures
- * Smarter search with Google, Foursquare and 17 million new Points of Interest

Already available in 87 countries (including the USA and Canada, the UK, Eastern and Western Europe, Australia), the app will roll out to an additional countries in the next few months.

"These new features will drive the next 23 million users and beyond to Navmii," Peter Atalla, CEO of Navmii Publishing Ltd. "We have delivered an in app experience that matches or exceeds every other free and paid for navigation device or app on the market. Navigation and location is one of the hottest areas in mobile technology currently, with global giants like Google and Apple competing to deliver relevant services. More than 23 million users globally already trust Navmii to get them to their destinations and, with this update, we are in a position to help drivers get further, quicker and safer."

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Optimized for iPhone 5, iPhone 6/6 Plus
- * Requires iOS 7.0 or later
- * 50.3 MB
