

Webcomics Now! Update 1.4 is Here

Published on 04/07/15

California based Four Color Development LLC today announces Webcomics Now! 1.4, an update to their popular comic reading app for iOS devices. Webcomics Now! is a publishing platform for webcomics creators to distribute their work to a wider fan base, in addition to a web site, RSS feed, and more. Version 1.4 includes a complete redesign of the "Featured" and "Settings" screens. In addition to these makeovers, the 1.4 update includes performance enhancements and other improvements.

San Diego, California - The Webcomics Now! comic reading app has now been updated to version 1.4. This release includes a complete redesign of the "Featured" and "Settings" screens. In addition to these makeovers, the 1.4 update includes performance enhancements and other improvements. The 1.4 Webcomics Now! update can be downloaded now in the Apple App Store.

If you love reading comics, you'll love the Webcomics Now! iOS app. There are many great webcomics, but it can be challenging and time consuming to visit each webcomic site. Webcomics Now! makes it easy for you by bringing an ever-growing collection of amazing webcomics to your mobile phone.

- * Read your favorite webcomics on your iOS device, any time anywhere
- * Discover new comics by genre, title, or creator
- * Enjoy bookmarks that persist across all of your devices
- * Receive notifications when new pages are available
- * Share the comics that you love through social media

Binge on complete runs of these great comics! The full archive of each comic is available at your finger tips.

Keep current on your comics:

Updates appear as frequently as several times a day. Bookmark the comics that you want to follow.

Automatic data syncing:

New comics will be added continually and appear in your app automatically. You don't need to update the app itself in order to receive new comics or pages.

Efficient:

Comic pages are indexed for fast access but do not take up excessive space on your device. Only links to the comics are stored locally and not the actual image files. Supports any device orientation; this means no struggling to rotate to a particular orientation to view the app upside-up.

At Webcomics Now! we love comics and the creative folks who make them! We fully respect comic creators and their rights. We present the creator's comic unaltered in it's intended form.

Webcomics Now! is a publishing platform for webcomics creators to distribute their work to a wider fan base, in addition to a web site, RSS feed, and more.

The Webcomics Now! "Auto-Publishing" model makes life easy for comic creators. What does it mean to "Auto-Publish"? Just this: Once a comic creator completes a simple form to setup a comic for auto-publishing, they are done worrying about it. They simply continue to create new comic pages on their site which then show up in Webcomics Now!
