

Divine Fiat introduces Photogenic Redux Theme for Apple Keynote

Published on 09/10/09

Divine Fiat today is proud to introduce Photogenic Redux, their new theme for Apple's Keynote Presentation Software. Photogenic is about photographers displaying their photography their way. Featuring clean white text on a black background with a beautifully custom-designed icon of a 35-mm lens, photogenic sports features resizable media placeholders in seven photographic ratios.

Jacksonville, Florida - Divine Fiat has announced Photogenic Redux, their new theme for Apple's Keynote Presentation Software. Utilizing clean white text on a black background with a beautifully custom-designed icon of a 35-mm lens, photogenic features the presenter not the theme designers. Photogenic is ideal for a wide variety of presentations.

Designed with professional photographers in mind, Photogenic features resizable media placeholders in seven photographic ratios (1:1, 5:4, 4:3, 7:5, 3:2, 16:9, 7:1) as well as fully customizable button and icon objects. Among Photogenic's most distinctive features are its overwhelming number of master slide layouts; just over a 110 in all, including 11 highly polished text layouts and 100 photo layouts available in 800, 1024, 1280, 1680, and 1920 theme sizes.

Feature Highlights:

- * Supports Keynote 4.0 - 5.0
- * Leverages Helvetica Neue Light for an easy-to-read, yet clean look
- * Supports 800, 1024, 1280, 1680 and 1920 Theme Sizes
- * 1:1, 5:4, 4:3, 7:5, 3:2, 16:9, 7:1 Photographic Ratios
- * 11 Text Layouts
- * 100 Photo Layouts

"I love the 'Apple look' and Photogenic certainly has the Apple look" said Phillip Gore, founder of Divine Fiat. "Before Keynote went HD, Photogenic was hands down our best seller. I am so excited to finally offer a full HD version."

Your images are gorgeous and the container you use to present them should not distract from that. Photogenic is a theme that let's photographers and presenters display their images their way. It's perfect for framing your photos and concepts effectively and it's a wonderful compliment to Apple's iLife Suite.

Minimum Requirements:

- * Mac OS X Version 10.4 Tiger or later (Leopard and Snow Leopard Compatible)
- * Keynote Version: 4.0 - 5.0 or later
- * 8.7 MB Hard Drive space
- * Helvetica Neue Light Font Required

Pricing and Availability:

Photogenic Redux is available immediately for \$26.00 (USD). The Creative Theme Set, which includes Take Two Redux along with Photogenic Redux, may be purchased for \$46.80, a 10% savings over buying individually.
