

Aimersoft Studio releases Aimersoft iSynK 1.0.0.4 for Mac OS X

Published on 09/11/09

Aimersoft Studio has released Aimersoft iSynK 1.0.0.4 for Mac OS X. Aimersoft iSynK for Mac acts as a qualified mediator between iPod or iPhone and Mac. Apart from transferring files from iPod or iPhone to Mac, Aimersoft iSynK for Mac also helps you to transfer music, videos or photos from iPod to iTunes or from Mac to iPod. iSynK now supports the latest iTunes 8.2, with full support for Mac OS X 10.6 Snow Leopard.

Shenzhen, China - Aimersoft Studio has released Aimersoft iSynK for Mac which acts as a qualified mediator between iPod or iPhone and Mac. Now it supports the latest iTunes 8.2. Also, it gives a full support on Mac OS X 10.6 Snow Leopard. With its Mac friendliness and convenience, Aimersoft iSynK for Mac acts as a qualified mediator between iPod or iPhone and Mac. Apart from transferring files from iPod or iPhone to Mac, Aimersoft iSynK for Mac also helps you to transfer music, videos or photos from iPod to iTunes OR from Mac to iPod. Now it supports the latest iTunes 8.2. Also, it gives a full support on Snow Leopard operation system.

Double-way transferring:

Aimersoft iSynK for Mac allows you to transfer your music, video and picture files between iPod or iPhone and Mac freely. It will also help to copy your favorite music, movies and photos from your local Mac file to your iPod or iPhone. Both steps can be finished perfectly without iTunes running on.

- * Supported Video Formats: mov, mp4
- * Supported Audio Formats: mp3 m4a m4b m4p m4v
- * Supported Picture Formats: bmp, png, jpg, gif, tiff
- * Supported Devices: iPod shuffle, iPod nano, iPod classic, iPod touch, iPhone, iPhone 3G, iTunes 8.2

Backup iTunes Library:

Aimersoft iSynK for Mac will convey audio and video files from iPod or iPhone to iTunes; make it possible to backup your music and video files in case you erased all files from iTunes or when you got a brand new MacBook, MacBook Pro, iMac, etc.

Customize Playlists:

Aimersoft iSynK for Mac allows you to create, edit, delete, rename or update your personal playlists, albums and themes. You can create your playlist according to artists, albums or favorites. Also you can sync all these customized playlists onto your iPod or iPhone.

Manage different iPods:

Backup all files to a new iPod? OR Share your favorite videos, pictures and songs with friends? Aimersoft iSynK for Mac will help you realize these. By connecting your iPod with Mac and transferring files, you can copy them into your new iPod or share them with friends by conveying files into another iPod from your Mac. The only condition is you have to run under fireware 2.0.

Classify and Manage your files:

You can check detailed information of your music, videos or photos on Aimersoft iSynK for Mac or alter and rename them manually. Also your device information will be exactly shown from Aimersoft iSynK for Mac.

Mac-friendly interface:

Aimersoft iSynK for Mac is specially designed for Mac users. Mac-friendly interface and handy usage will bring you lots of convenience and fun for use. Also a lifelong upgrade
