

Candy Camera for iOS Updated - Photos With Real-Time Filters and Effects

Published on 05/20/15

JP Brothers today releases Candy Camera 1.53.1, an update to their photo app for iOS devices. Candy Camera allows anyone to take photos, apply real-time artistic filters, and easily edit them. This entertaining photo app also includes unique photo beautification effects, including blemish removal, make-up functions, and a handy slimming effect. Users can share their photos by posting it to popular social networks. With over 100 photo frames, this version's new stickers only add to the fun!

Seoul, Korea - JP Brothers is pleased today to announce the release of Candy Camera 1.53.1 for iOS devices. Candy Camera allows users to capture precious moments with their iPhone, without the hassle of applying filters afterwards. Candy Camera offers over 100 unique artistic filters, easy photo editing options, and the ability to post to Instagram, Facebook, Twitter, and more. Take selfies, edit and add effects with just the swipe of a finger, and then share them with friends.

Candy Camera's real-time filters show users the results before they take the shot, and do not require tinkering with any settings there afterwards. With over 100 unique artistic filters, the app also includes a skin correction filter, which was created specifically for taking selfies. Candy Camera's easy editing controls allow users to edit the brightness, contrast, saturation, and resolution, of photos. Anyone can crop and rotate photos, apply a Mosaic function, or a Lomo effect.

"Users love posting selfies on popular social networks like Facebook and Instagram," says JP Brothers CEO Ji Ho Seo. "Candy Camera makes it easy to take a photo, applying real-time effects with just a quick swipe of a finger. Then they can edit the photo, adding whichever beautification effect they'd like, and share it with friends and family over the Internet. As of July 2014, Candy Camera, had served more than 40,000,000 global users and had generated more than 2,600,000,000 unique photos. So you can see how popular the app is!"

Features:

- * Real-time filters instantly show what a photo will look like.
- * 100+ artistic and unique filters, including a skin correction filter specifically for selfies
- * Simple and easy editing: Change brightness, contrast, saturation, resolution, crop and rotate photos
- * Special Mosaic function, and Lomo effect
- * Skin whitening effect, Blemish removal, Make-up functions - eyeliner, mascara and blush
- * Slimming effect - no blurring, only natural slimming functions
- * Make pictures artsy with light effects
- * Make pictures stand out with about 100 photo frames available
- * Create unique pictures with a diverse range of stickers
- * Version 1.53.1 includes a new set of stickers
- * Instantly share photos to Instagram, Facebook, Twitter and more

Candy Camera also provides the tools for users to perform beautification and makeup effects with a single touch. Photos can be beautified via skin whitening effects, blemish removal, and make-up functions - including: eyeliner, mascara and blush - as well as a slimming effect, which contains no blurring, only a natural slimming function.

Once users have applied effects and filters, they can make their photos stand out with artsy effects, nearly 100 picture frames, and fun, colorful stickers. When a photo looks just as it should, it can be instantly shared to social networks, including Instagram,
