

2 Turntables and a Microphone 3.1 - iPad DJ App with Pro Loop Technology

Published on 06/04/15

Sprightly Software today announces 2 Turntables and a Microphone 3.1, an update to their highly advanced DJ setup for iPad. This music creation app features pro decks, crafted to reproduce the subtle dynamics of vinyl. Whether it's creating original music, recording live loops, remixing, or live DJing, 2 Turntables offers everything needed to produce professional quality music. Version 3.1 combines digital loop technology and turntablism, bringing music into the space age of creative expression.

Gibsons (BC) Canada - Today Sprightly Software introduces 2 Turntables and a Microphone 3.1 for iPad. This highly advanced DJ setup features pro decks, crafted to reproduce the subtle dynamics of vinyl. The new version combines digital loop technology and turntablism, bringing music into the space age of creative expression. The version 3.1 update expands hardware support to all iPad devices running iOS 8 or later. This update also provides performance, stability, and sound quality refinements, furthering the development of this modern DJ app.

Whether it's creating original music, recording live loops, remixing, or live DJing, 2 Turntables offers everything needed to produce professional quality music. The app allows users to perform traditional turntable techniques like the Flare and Crab scratch with its innovative crossfader controls.

DJs can now bring looping up to the next level with multiple looping methods, including cue, resize, and save. Users can easily create loops from any audio recording in the studio or during performance.

The live microphone invites endless possibilities, from creating samples to mixing in live performers. Using headphones, DJs can cue up tracks and monitor the microphone during live performances. Users will enjoy the versatility of the samplers, hot cues, effects, scratching, and manual beat-matching.

This is one of the most versatile and powerful music creation apps available. 2 Turntables brings a unique approach to easily managing and organizing tracks in its iTunes-integrated music library. The app's thoughtful design allows for maximum creativity and limitless possibilities. It's amazing what can be done with just 2 Turntables and a Microphone!
