

Free Fonts Passes 300,000 Downloads on the Mac App Store

Published on 06/23/15

Free Fonts on the Mac App Store recently passed 300,000 downloads on the Mac App Store, maintaining a top 10 position in the Graphics & Design category since its release. Don't settle for the same looking fonts everyone else uses for their writing, presentations, reports and designs. Change up your text style with a creative collection of 450 free fonts. All fonts are in OpenType font format and include a commercial use license to use in any home or business design project.

San Francisco, California - MacAppware, a division of 128bit Technologies, announces its Free Fonts collection has been downloaded on the Mac App Store over 300,000 times since its debut in 2013. The popular Free Fonts collection is the only free commercial use font collection to receive regular updates of brand new fonts, bringing it from its original total of 45 fonts to over 450 fonts today. Font collectors who download off the Mac App Store can also get a bonus of 150 additional fonts simply by subscribing to receive future updates of new fonts from MacAppware.

Need to change the way your text looks in a presentation, print project or a graphic design project? Download a new collection of inspiring font designs. This collection now includes 450 original fonts (623 total if you subscribe to future font releases) in OpenType font format, and can be used for any personal and business project. International character support is NOT standard for every font but is available for many of them.

These fonts are different from other font collections you may have downloaded or purchased recently from MacAppware/128bit Technologies (we never overlap or duplicate our fonts in any of our free or paid collections) and are an excellent addition to any font collector's library for use in graphic and logo design, web design, scrapbooks, presentations, invitations, promotional material, advertisements, and more.

The new fonts were licensed from top font designers in the industry, who agreed to offer their fonts through MacAppware absolutely free, including a commercial use license for each font! This growing font collection promises even more font updates throughout the year, absolutely free.

- * 450 total free fonts, with more added regularly
- * All free fonts in OpenType font format
