Indie developer, Muse Tools today introduces Space Platform 1.0, a slow paced first person platformer for iOS devices. Set in a post apocalyptic future, Space Platform relies on knowing your surroundings and figuring out your next move. The player must manipulate switches, learn platform patterns and traverse many obstacles to collect the artifacts needed to resurrect humanity. The game's unique platform puzzles and touch sensitive jumps will challenge players to the maximum.

Giza, Egypt - Indie developer, Muse Tools today is proud to announce the release of Space Platform 1.0 for iOS. Space Platform is a slow paced first person platformer that relies on knowing your surroundings and figuring out your next move. The game's unique platform puzzles and touch sensitive jumps will challenge players to the maximum.

Space Platform is set in a post apocalyptic future after the extinction of mankind. The player is the last human survivor. To beat the game, the player must manipulate switches, learn platform patterns and traverse many obstacles to collect the artifacts needed to resurrect humanity. With 20 distinctive levels, top notch graphics and intense game play, Space Platform takes the player on an unparalleled journey through the galaxies.

The developer says, "I'm excited to launch my game on iOS. It has taken me much time to design the game to bring a new experience to iOS gaming. I'm very proud of the final outcome of the game. Space Platform is an adventurous game with many interesting twists." He further added, "I hope gamers will enjoy playing the game, as much as I enjoyed making it"
