Williamsburg, Virginia - Hunter Research and Technology is excited to offer its flagship augmented reality navigation app Theodolite for 50% off during a special summer sale. Theodolite is great for outdoor enthusiasts, professionals, students, teachers, explorers, and high-tech gadget lovers.

Theodolite is a multi-function viewfinder for iPhone and iPad that combines a compass, two-axis inclinometer, rangefinder, GPS, map, nav calculator, tracker, and geo-tag photo/movie camera into one indispensable app. Uses are endless, and the app is great for hiking, boating, hunting, golf, outdoor sports, sightseeing, navigation, and finding your way around. Theodolite also has professional grade features, and is used extensively by surveyors, geologists, architects, engineers, competitive sportsmen, first responders, military personnel, and search and rescue workers around the world.

Sale pricing for Theodolite carries over to the Outdoor Adventure App Bundles from Hunter Research, which combine up to five popular outdoors apps at a great discount. These apps have been shown in Apple Keynotes, featured in iTunes, and even filmed by Apple being used atop the Great Wall of China! Find out why Apple included Theodolite and other Hunter Research apps among the most amazing apps available. Where will you take them on your next adventure?
