

## **app4touch releases 6 New Apps for iPhone and iPod touch**

Published on 09/24/09

California based app4touch has just released PocketPets, BestBuddies, Periscope, TopMotors, GeekStuff and Paradiso for iPhone and iPod touch. All 6 new applications feature a new user interface designed specifically for the iPhone and iPod touch. An animated background, sounds and stunning graphics are integrated in each application for the best user experience. All applications takes advantage of the main features of the iPhone like the camera and the vertical/horizontal mode.

Los Angeles, California - app4touch has just released 6 new apps for iPhone/iPod touch. All applications are featuring a new user interface designed for the iPhone and iPod touch. An animated background, sounds and stunning graphics are integrated in each application for the best user experience. All applications takes advantage of the main features of the iPhone like the camera and the vertical/horizontal mode (for photos).

About The New Applications:

### **PocketPets 2.0**

PocketPets is a fun and useful application that allows you to easily manage information important to the happiness and health of your furry and feathered friends! With PocketPets, you can create a profile for each of your pets including photos, birth date, identification, microchip and vaccination records, veterinary appointments, meal requirements, and much more. PocketPets not only allows you to quickly build a record of your own pets, but also the pets of your friends (with the related Events and Photos).

### **BestBuddies 2.0**

BestBuddies is a fun and useful application that allows you to improve the management of your friends list! With BestBuddies, you can create a profile for each of your friends including photos, birth date, phone number, online IDs and much more. BestBuddies not only allows you to quickly build a record of your own friends, but also the friends of your friends (with the related Events and Photos).

### **Periscope 1.5**

Periscope is a powerful and useful application that allows you to monitor a list of websites. With the help of Periscope, you can browse up to six websites at the same time, add multiple pages and quickly make sure that all your websites are running correctly. The possibilities go as far as your imagination!

### **TopMotors 1.0**

TopMotors is a fun and useful application that allows you to easily manage your own vehicles but also your preferred trucks and cars! With TopMotors, you can create a profile for each of your vehicles including photos, purchase date, plate registration, garage appointments, and much more. TopMotors not only allows you to quickly build a record of your own vehicles, but also the vehicles that you really love (with the related Events and Photos).

### **GeekStuff 1.0**

GeekStuff is a fun and useful application that allows you to easily manage your electronic items (camera, game console, computers, etc). With GeekStuff, you can create a profile for each of your electronics including photos, purchase date, serial numbers, repair appointments, and much more.

### **Paradiso 1.0**

Paradiso is a fun and useful application that allows you to manage the best places in your
