

Back-to-School Specials on Prizmo and Carbo scanning apps

Published on 08/17/15

Creaceed put its awesome scanning apps on sale at 50% off to celebrate back-to-school season: Carbo, an app for pen & paper lovers bringing handwriting in the digital age; and Prizmo, the most complete scanning/OCR app on Mac, iPhone and iPad. The sale runs from Monday August 17th to September 4th. With Carbo you collect notes, design sketches, whiteboard drawings, tag and annotate your notes for easy retrieval. Prizmo is Creaceed's flagship app for document scanning and processing.

Mons, Belgium - Creaceed put its awesome scanning apps on sale at 50% off to celebrate back-to-school season: Carbo, an app for pen & paper lovers bringing handwriting in the digital age; and Prizmo, the most complete scanning/OCR app on Mac, iPhone and iPad. The sale runs from Monday August 17th to September 4th.

Carbo for iPhone and iPad lets you capture and organize handwritten notes and sketches, bringing handwriting in the digital age. Carbo's innovative visualization technology sets you free from pixel artefacts, while preserving all expressiveness of your original drawings. With Carbo you collect notes / design sketches / whiteboard drawings, tag and annotate your notes for easy retrieval, and store them either on the device itself or in the cloud (Evernote, Dropbox, or iCloud).

Prizmo is Creaceed's flagship app for document scanning and processing. Prizmo offers a streamlined approach to document processing: scan with a camera, recognize the text, edit, export. With Prizmo, you can skip any of these steps and go straight to the results, or instead dive into advanced editing if document requires it (brightness correction, readability improvement, multiple languages, OCR regions editing, text correction, etc.). Export options include PDF with searchable text, and allow sending to various cloud services, like Dropbox, Box, SkyDrive, Google Drive or Evernote. Prizmo also allows processing and editing business cards, and then exports them to your contacts.

Prizmo brings advanced scanning capabilities across the entire range of Apple devices, from iPhone and iPad to the Mac, with or without a scanner. Interoperability between devices has never been easier, with full iCloud and Handoff support across versions. As particular attention was paid to accessibility, Prizmo is also a valuable tool for the visually-impaired, students with learning disabilities, and dyslexic children.

Device Requirements - iOS:

- * Universal applications (iPhone, iPad) requiring iOS 8.2 or higher
