

## Dev Docs Makes Game Developers' Lives Easier - Available Now for iOS

Published on 08/27/15

Michigan based Wolverine Games LLC today announces Dev Docs 1.6, its game planning and idea generation app for iOS devices. Are you constantly forgetting all the great game ideas that you come up with on-the-go? Dev Docs makes it easy to record all your ideas in an organized fashion. You enter in the information you have about your game, and Dev Docs will format it into a game design document that can be exported via multiple different sources like Dropbox, e-mail, and AirDrop.

Novi, Michigan - Available today, the app Dev Docs by Wolverine Games LLC provides game developers and designers the opportunity to outline their ideas on-the-go. It allows developers of all skill levels to input information such as the game's name, storyline, characters, style, and more. From there, a game design document can be exported via multiple different sources like Dropbox, e-mail, and AirDrop.

Major features include:

- \* 25 different categories for input
- \* Unlimited lists for brainstorming characters, levels, and other game features
- \* Automatic saving
- \* Extensive export options
- \* Simple user interface

Wolveine Games LLC is attempting to get rid of the "confusing and disruptive parts of game design, like creating game design documents and worrying about how to structure brainstorming sessions." Dev Docs approaches this goal by providing game developers with multiple ways to express design goals. Some categories give space for you to explain your thoughts, while others prompt short responses to keep you concise.

Device Requirements:

- \* iPhone, iPad, and iPod touch
- \* Optimized for iPhone 5, iPhone 6/6 Plus
- \* Requires iOS 7.0 or later
- \* 1.9 MB

Pricing and Availability:

Dev Docs 1.6 is only \$0.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Productivity category. A limited number of promo codes are available upon contacting Brendan Campbell. Easily accessible screenshots and press information can be found in the Dev Docs press kit. For more information please visit the Dev Docs official website.
