Gent, Belgium - Devia has announced their first Chapter of CocoaHeads in Belgium. CocoaHeads is a group devoted to discussion of Apple Computer's Cocoa Framework for programming on MacOS X (including the iPhone). During monthly meetings, members present on their projects and offer tutorials on various programming topics.

CocoaHeads Belgium is the first Chapter of CocoaHeads in Belgium. CocoaHeads Belgium will be holding their Founding Meeting on Monday 28 September 2009 starting at 19:00 in the offices of IBBT (Zuiderpoort Office Park, Gaston Crommenlaan 8, 9050 Gent-Ledeberg, Belgium).

This first meeting will be an informal meeting in which attendees will have the opportunity to meet with other Cocoa and CocoaTouch enthusiasts from Belgium. The meeting itself will be held in English in order to facilitate both the Dutch and French speaking Cocoa community in Belgium.

The goal of this meeting is to have a brainstorm session with the attendees. This session will give everyone the opportunity to help us shape the future of CocoaHeads Belgium and make sure CocoaHeads Belgium will become THE event for Cocoa developers and by Cocoa developers.

Registration

The meeting is free for everyone interested in Mac and iPhone development. We kindly ask you to register for the event at Eventbrite. Spaces are limited, so if you want to attend, register as soon as possible.
