

LinkOptimizer for Adobe InDesign at 50% off on MacUpdate on September 14

Published on 09/14/15

Zevrix Solutions announces that its workflow automation solution for InDesign, LinkOptimizer, is available at 50% off on MacUpdate promo today September 14 only. LinkOptimizer allows to automatically reduce the size of InDesign image links by eliminating excess image data, convert image colors, file formats and more. As a result users can save gigabytes of disk space, accelerate output, reduce production time and costs, and effortlessly repurpose InDesign jobs for web and mobile devices.

Toronto, Canada - Zevrix Solutions is happy to announce that LinkOptimizer, its popular workflow automation solution for Adobe InDesign, is available at 50% off on MacUpdate promo on September 14 only. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer automates complex image manipulation tasks allowing to significantly reduce the size of InDesign links, save processing time and reduce production costs. The promo lets users save US\$130 on each copy of the software.

"This is the best extension I ever purchased for any design app," says Wayne Guy of Edge Graphics in Van Nuys, California. "It saves hours of time, tediously replacing linked images, resizing, batch processing. Worth every penny... It's a must have tool for a designer who works with large inDesign files with lots of images, like catalogs or magazines."

In order to eliminate excess image data, LinkOptimizer automatically scales and crops the images in Photoshop to match their dimensions in InDesign, changes resolution to the target value specified, and re-imports images to InDesign at 100% in their precise position.

In addition, with just a click of a button users can:

- * Convert image colors to an ICC profile
- * Convert image formats
- * Delete hidden layers and apply sharpening
- * Run Photoshop action on each image
- * Save images for web and mobile devices
- * Back up all links and assign variable file names

As a result, users can save gigabytes of disk space, accelerate document output, reduce job turnaround, and cut costs through faster processing, and effortlessly repurpose InDesign jobs for web and mobile devices.

System Requirements:

- * Adobe InDesign CS3-CC 2015
- * Adobe Photoshop CS3-CC 2015
- * Mac OS X 10.6 - 10.10

Pricing and Availability:

LinkOptimizer is available from MacUpdate.com at 50% off for \$129.95 on September 14 only. A trial version is also available for download.
