

ChronoSync Updated With El Capitan Support

Published on 10/01/15

Econ Technologies updates ChronoSync to version 4.6.4 with fixes related to OS X El Capitan. ChronoSync, the the complete Mac backup, bootable backup, and folder synchronizing app works with any device you can connect to a Mac such as external drives, thumb drives, network volumes, remote Macs, or even a PC. Additionally the update includes fixes to problems with establishing IPv6 network connections. Whether it's a minor or major update all existing users update for free.

Casselberry, Florida - Econ Technologies updates ChronoSync to version 4.6.4 with fixes related to OS X El Capitan. ChronoSync, the the complete Mac backup, bootable backup, and folder synchronizing app works with any device you can connect to a Mac such as external drives, thumb drives, network volumes, remote Macs, or even a PC. Additionally the update includes fixes to problems with establishing IPv6 network connections. Whether it's a minor or major update all existing users update for free. We have continuously improved ChronoSync for over ten years and never charged for an update. Download to try it out or purchase ChronoSync for \$49.99.

To view a complete list of all the fixes in ChronoSync 4.6.4 check out the Release Notes online.
