

## **Tum Tums Features Endless Gameplay, Unforgettable Characters and More**

Published on 10/05/15

Tum Tums 1.0 from Emboldman is a refreshingly original and fun adventure game in which users must solve levels by skillfully avoiding obstacles, collecting stars, by activating various power-ups. Users must solve each level by skillfully avoiding obstacles such as a sheep on a rocket, collecting stars, and activating various power-ups, like Invincibility, Star Magnet, Gravity Challenge, and more. The new no-cost app features 22 unforgettable characters and beautiful graphics.

Cupertino, California - Adventure game lovers looking for their next conquest have reason to celebrate, because Emboldman's highly addictive new app Tum Tums is now available at no-cost from the App Store. Designed to be enjoyed by users of all ages - from kids to adults to seniors - Tum Tums is a refreshingly original and creative game that is easy to understand, but challenging to master.

The game's inventive and amusing back story goes like this: deep in the forest lives the Tum Tums Tribe, which is made up of 22 unique creatures that each have their own look, color and name. They also live with a friendly panda named Huan, who occasionally provides helpful tips and hints for solving levels - and at other times, plays tricks and jokes. It's up to users to decide when Huan is being helpful, and when he's just being silly.

Users must solve each level by skillfully avoiding obstacles such as a sheep on a rocket, collecting stars, and activating various power-ups, like Invincibility, Star Magnet, Gravity Challenge, and more. Currently, there are 96 unique levels, and more will be added in future updates. In addition, Tum Tums has been designed with beautiful graphics, which enhances the virtually endless gameplay experience. Regardless of their current triumph, users can look forward to another level to conquer, more points to collect, and more interesting characters to unlock.

Other Tum Tums special features include:

- \* One-touch game controls, which means that instead of trying to figure out how to play, users will be having fun within seconds of installing the app
- \* Leaderboard integration so users can compete against their friends, and other users around the world

"Tum Tums is both fun and challenging, and features unique characters that are unlike anything users have ever seen before!" commented Andrej Selan of Emboldman. "All it takes is a few minutes of playing and users will be hooked - there's always a fun new challenge ahead".
