

Graphixware Releases Mobile Currency Converter for Apple Watch, iPhone

Published on 10/23/15

Graphixware announces CurrencyXCH 1.1, an important update to their currency converter app for iOS and Apple Watch devices. The app converts monetary values from one currency to another using live exchanges rates, based on the largest world banks and market makers in the foreign exchange (Forex) market. Exchange rates are updated hourly for 168 world currencies and precious metals. Version 1.1 brings improved watch amount and currency touch triggers, a fix for a minor UI issue, and more.

Chelmsford, Massachusetts - Graphixware, a mobile app startup that specializes in productivity apps, is proud to announce CurrencyXCH 1.1, an important update to their currency converter app for iOS and Apple Watch devices. The app converts monetary values from one currency to another using live exchanges rates, based on the largest world banks and market makers in the foreign exchange (Forex) market. Exchange rates are updated hourly for 168 world currencies and precious metals.

The mobile app, built using Apples' latest iOS and WatchOS technologies, is ideal for foreign travel. It can be used to convert monetary values from one currency to another, as well as comparing live exchange rates to those being offered at banks, hotels, and airports, when determining the best outlet for converting money. CurrencyXCH is also a reliable tool for trading foreign currencies.

Additional features include a Tip Calculator (iPhone, iPad apps) and Siri monetary input (Apple Watch app).

What's New in Version 1.1.0:

- * Resolved minor UI issue
- * Improved iOS app icons
- * Improved Watch Amount and Currency touch triggers

Device Requirements:

- * iPhone, iPad, iPod touch, and Apple Watch
- * Requires iOS 9.0 or later
- * Universal Application
- * 11.8 MB

Pricing and Availability:

CurrencyXCH 1.1 is free and is available worldwide exclusively through the App Store in the Travel category. Initial install includes 20 free currency conversions. Additional conversions can be purchased in bulk from within the app for a nominal fee (e.g. 200 conversions for \$0.99).
