Mireth Technology Corp. announces the release of ShredIt X version 6.0.4, its easy to use file shredder App for Mac OS X. ShredIt is easy-to-use privacy software for Mac OS X that erases data so it can't be recovered. It can be used to erase files, folders, disk free space, previously deleted files, hard drives, external drives, network drives and CD-RWs. Version 6.0.4 adds support for Mac OS X 10.11 El Capitan and addresses a maintenance issue with shredding CD RWs.

Richmond, Canada - Mireth Technology Corp. is proud to announce the release of ShredIt X 6.0.4, its easy to use file shredder and hard drive cleaner software for Mac OS X. ShredIt is easy-to-use privacy software for Mac OS X that erases data so it can't be recovered. It can be used to erase files, folders, disk free space, previously deleted files, hard drives, external drives, network drives and CD-RWs. ShredIt comes with a wide range of features, including built in safety features along with advanced shredding features such as, government standards compliance and a configurable overwrite pattern.

Version 6.0.4 of ShredIt X adds support for Mac OS X 10.11 El Capitan and addresses a maintenance issue with shredding CD-RWs.

The need for ShredIt:

Because throwing data in the computer trash does not remove the file contents from the hard drive, the data can be recovered by someone else. Many users want to erase sensitive data to mitigate the risk of it being recovered. In addition, users who need to dispose of confidential data on an ongoing basis need a fast way to shred files without having to erase their entire trash can or their entire hard drive. Users who want to erase the contents of a hard drive before disposing of a computer need an easy way to erase the drive so that they can do the job successfully.

Pricing and Availability:

ShredIt X 6.0.4 is available for immediate download, or on CD-ROM, starting at \$24.95. Educational pricing and volume discounts are available. ShredIt X runs on Mac OS X. ShredIt is also available for Mac OS 7, Mac OS 8, Mac OS 9, Windows. For more information, visit The ShredIt X website.
