

PopChar X 7.3 supports skin tone variants in Apple Color Emoji

Published on 11/02/15

Ergonis Software today released PopChar X 7.3, an improved version of the company's award-winning tool for finding and inserting special characters and exploring fonts. With PopChar, thousands of special characters are only a few clicks away. PopChar X 7.3 allows to select skin tone variants of all applicable symbols of the Apple Color Emoji font. It improves the organisation of Unicode blocks and fixes a few user-reported issues and improves compatibility with El Capitan.

Perg, Austria - Ergonis Software today released PopChar X 7.3, an improved version of the company's award-winning tool for finding and inserting special characters and exploring fonts. In PopChar X 7.3, you can now select skin tone variants of all applicable symbols of the Apple Color Emoji font by simply clicking the skin tone symbol in the lower right corner of the emoji.

The new version also improves the organisation of Unicode blocks. Group headers can now be collapsed and expanded with double-clicks, and it is now possible to collapse or expand all groups by pressing the option key while clicking a disclosure triangle. PopChar X 7.3 furthermore fixes a few user-reported issues and improves compatibility with El Capitan. Visit Ergonis Software's website to learn more about the changes in this release and to download a trial copy.

PopChar solves a problem faced by every technologist and multi-lingual worker. Inserting special characters into application documents can be frustrating and results in a steady loss of productivity. With PopChar, thousands of special characters are only a few clicks away. Just pop up the PopChar window, click the desired character, and the character appears in your current document right away. Starting with PopChar 7, you can even find special characters by simply drawing them.

System Requirements:

PopChar X 7.3 requires Mac OS X 10.6 or newer and is compatible with OS X El Capitan (10.11).

Pricing and Availability:

PopChar X can be purchased securely on the Ergonis Software website. The upgrade to PopChar X 7.3 is free for anyone who owns a license for PopChar X 7 or purchased a license for PopChar X 6 on or after March 1st 2014. Upgrade paths are available for customers who purchased their license before that date. For information about purchases, including enterprise licenses, volume discounts, and upgrade pricing offers, see the company's web site. Instead of purchasing PopChar separately, customers can save money by ordering the Ergonis Productivity Bundle, which also includes the text expander Typinator and the keyboard shortcut helper KeyCue.
