

Docs & Works Brings Robust Fill and Sign Toolbox to iDevices

Published on 11/03/15

DAR Software today introduces Docs & Works 1.1, a new robust app for filling and signing documents on iPhones and iPads. Docs & Works is designed to empower iDevice owners to promptly act upon incoming documents and handle everyday paperwork. The new app enables anyone to complete forms, endorse signatures and provide feedback with the help of overlay notes and remarks. Users can feed in documents in a variety of formats from all major sources, including popular cloud storages and even paper.

Odessa, Ukraine - DAR Software today is thrilled to announce the release and immediate availability of Docs & Works - the new robust application for filling & signing documents on iPhones and iPads. The new application enables its users to complete forms, endorse signatures and provide feedback with the help of overlay notes and remarks. It allows its users to feed in documents in a variety of formats from all major sources, including popular cloud storages and even paper.

Docs & Works is designed to empower iDevices owners to promptly act upon incoming documents and handle everyday paperwork: fill out required details, review and comment on document content, sign and execute agreements, digitalize papers and more. The new app presents an impressive set of document processing tools neatly packed into elegant, minimalistic interface. The app's interface is built around the handy file manager that opens instant access to all supported document sources.

The app works with majority of file types e.g. MS Office, iWork files, PDFs used for legal and financial documents and lets connect the user's iCloud Drive, Google Drive and Dropbox accounts, feed documents from Email, web browser and integrated Scanner. Thanks to the robust PDF processing capabilities, the documents get converted to high-quality PDFs for further processing.

Supported sources and file types:

- * PDF, Word, Excel, Text, web pages, Pages, Numbers, Images and more
- * Google Drive, Dropbox and iCloud Drive;
- * Support for multiple cloud accounts
