FOR IMMEDIATE RELEASE

Winnipeg, Canada - August 27, 2007 - ZappTek is proud to announce its version 3.4 release of iPDA. As a perfect companion to Apple iPod, iPDA serves as an excellent replacement PDA. Word, PDF, Apple Pages, RTF or text documents may be easily transferred to iPod so data is available for quick access. iPDA supports transferring information from Entourage, Gmail, Stickies, Mail, Address Book and iCal, making it simple to put the information users need on their iPod.

- Download Gmail conversations and contacts.
- Download RSS feeds and keep track of local weather with up-to-date forecasts.
- Download news articles from news.google.com and read them on the way to/from work.
- Subscribe to published iCals and download them directly.
- Download driving directions directly to iPod.
- Perform a backup to iPod.

Using iPDA's Sync facility, you can have it all with a single click. iPDA makes it simple to put the information you need on your iPod. Apple called it the iPod for a reason. Get the most out of yours!

iPDA 3.4 sports many new feature enhancements:

- * Download your Gmail conversations and contacts directly to iPod.
- * Stickies syncing now includes notes from the Stickies Dashboard widget -- in addition to the notes from the Stickies application.
- * Ensures full compatibility with Pages '08.
- * Improves directions support for International users.
- * The feed button icon is now the standard RSS icon.
- * Minor bug fixes for RSS feeds, directions, and Sync error handling.

Minimum Requirements:

- * Mac OS X version 10.3 or higher.
- * An iPod.
- * Microsoft Entourage for Entourage data synchronization.
- * Web Services require an Internet connection.

Getting Started:

To install iPDA 3.4, drag it to your Applications folder or wherever you'd like to keep it. Clicking on a button will bring up a window to select the specific subset of information to export to your iPod; each window contains basic guides on its use. For more information on how to work with a given window, check out its screenshot page at <http://www.zapptek.com/ipda/>. Determine the settings needed for syncing and click OK. Users may also make selections and immediately transfer information to their iPod by clicking Transfer Now.
