Kalmar, Sweden - inFocusmedia iFoM AB today is proud to announce the release of Captain Cheezy 1.0.5, their new game title developed for iOS and Android devices. History:

The original idea for Captain Cheezy was a super casual tunnel flyer where points and avoiding hitting the walls were the only objectives. As game development progressed more enemies, goodies and options were added to keep players entertained for longer. The simple "just tap" control as the two man indie dev. team, Jonas Thoor and Michael Lakatos, aimed for in the original is still used, making the game easy to understand and play but very hard to master. Captain Cheezy is the Swedish indie duos 5th game in the super casual genre.
