

LinkOptimizer for Adobe InDesign Improves Processing of Duplicate Links

Published on 11/23/15

Zevrix Solutions today announces LinkOptimizer 4.9.51, a maintenance update to its workflow automation solution for Adobe InDesign. LinkOptimizer allows to reduce InDesign link size and speed up output by eliminating excess image data. The software also performs image adjustments, converts file formats and helps repurpose InDesign files for web and mobile devices. The new version addresses an issue in which duplicate links in InDesign document weren't processed under certain conditions.

Toronto (ON) Canada - Zevrix Solutions today is proud to announce the release of LinkOptimizer 4.9.51, a maintenance update to its workflow automation solution for Adobe InDesign. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer automates complex image manipulation tasks and allows users to reduce the size of InDesign links, repurpose them for web and mobile devices, save processing time and reduce production costs.

The new version addresses an issue in which the links placed multiple times in InDesign document weren't processed if user deselected first instances of such links in LinkOptimizer. LinkOptimizer creates a separate image copy for each occurrence of a duplicate link in order to resize and crop the image according to its dimensions in InDesign.

"This is the best extension I ever purchased for any design app," says Wayne Guy of Edge Graphics in Van Nuys, California. "It saves hours of time, tediously replacing linked images, resizing and batch processing. Worth every penny... If you're a designer or production artist that works with large inDesign files with lots of images, like catalogs or magazines, you need this."

LinkOptimizer offers the following main features:

- * Resize images to match their InDesign dimensions at a target resolution
- * Reduce link size by eliminating excess image data
- * Convert colors and apply ICC profile
- * Merge layers and delete hidden ones
- * Convert image formats
- * Optimize files for web and mobile devices
- * Run a Photoshop action on each image

Pricing and Availability:

LinkOptimizer can be purchased from Zevrix website for \$259.95 USD (Light version: \$179.95) as well as from authorized resellers and Adobe Exchange. Trial is also available for download. The update is free for LinkOptimizer 4.x users and \$130 to upgrade from previous versions. LinkOptimizer requires Mac OS X 10.6-10.11 and Adobe InDesign and Photoshop CS3-CC 2015.
