

A Better Finder Rename 7.9.2 improves Multi-Step Rename

Published on 08/29/07

publicspace.net is pleased to announce the immediate availability of A Better Finder Rename 7.9.2. Version 7.9.2 of their file renaming solution makes further improvements to the multi-step rename feature introduced in version 7. This feature allows users to combine several separate renaming steps and apply them simultaneously. This new release features extensive internal changes to this mechanism, an improved user interface and new "clear all" button.

FOR IMMEDIATE RELEASE

Canach, Luxembourg - August 29, 2007 - publicspace.net is pleased to announce the immediate availability of A Better Finder Rename 7.9.2. Version 7.9.2 of their file renaming solution makes further improvements to the multi-step rename feature introduced in version 7.

The multi-step rename feature allows users to combine several separate renaming steps (e.g. "convert to lower case", "add sequence to the end", etc.) and apply them simultaneously. This new release features extensive internal changes to this mechanism, an improved user interface and new "clear all" button.

System Requirements:

- * Mac OS X 10.4 Tiger compatible
- * Universal Binary for PowerPC & Intel
- * 5 MB Hard Drive space.

Pricing and Availability:

A Better Finder Rename 7.9.2 may be purchased for \$19.95 USD. In the trial mode, it will be limited to renaming at most 10 files at a time.

A Better Finder Rename has long been one the most comprehensive file renaming solutions for the Macintosh. It is based on over 10 years of listening to users and addressing their requirements.
