

Pocket Swipe 1.0 released for iOS - Swipe Up, Down, Left, and Right

Published on 12/10/15

Ohio based Little Tank Apps today introduces Pocket Swipe 1.0 for iOS, a fast-paced game that challenges a player's speed and accuracy. Swipe up, down, left, and right in this free, fast-paced game to pass each level where the key to winning is a balance between accuracy and speed. A timer will dictate how long a player has to complete the number of swipes necessary to pass the level. Players must be fast to keep up, but also accurate as each incorrect swipe results in failure.

Columbus, Ohio - Little Tank Apps today is proud to announce the release of Pocket Swipe 1.0 for iOS, a free, fast-paced game that challenges a player's speed and accuracy. In each of Pocket Swipe's many levels, a timer will dictate how long a player has to complete the number of swipes necessary to pass the level. Players must be fast to keep up, but also accurate as each swipe is either up, down, left, or right and an incorrect swipe results in failure.

Each level is one more than the last and players must keep a swift pace or risk falling behind and losing to the timer. Equally players must keep focused to correctly swipe each arrow or risk losing to an incorrect swipe. No matter how players win or lose a level they will be greeted with 1 of over 200 screens not limited to encouragement, one-liners, and silly mischief keeping players entertained and motivated to just keep swiping. Be fast. Be accurate. Have fun!
