Melbourne, Australia - Interactive Coconut today is thrilled to announce the release of Grabble Words! 1.0, their new game title developed for iPhone, iPad and iPod touch devices. Love word games? Getting bored of Scrabble and its various clones? Inspired by Anagrams, a word game made popular in the late 19th and early 20th centuries, Grabble Words! is a free two-player game that is simple in concept, but fun and challenging to play.

Take turns to find a word from the pool of letters, or grab a word from your opponent, by adding letters to the word. When the tiles run out the player with the highest letter score wins. The fastest to find a word gets it. But but careful - longer words beat faster words! Should you be quick and claim the first word you find? Or should you take your time to grab the longest word you can find? The choice is yours.

With Grabble Words! you can:

- * Play a friend, passing the device
- * Play with your friends on Facebook
- * Play the 'Grabot', with three levels of difficulty
- * Boast about your win by sharing a final screenshot on Facebook or Twitter

Grabble Words! is inspired by the word game Anagrams, which was first published before Alfred Butts, the inventor of Scrabble was even born! Alfred himself used Anagrams as inspiration for Scrabble.

- * iPhone, iPad, or iPod touch
- * Requires iOS 8 or later
- * 70.3 MB
