

Zevrix Extends 50% Holiday Sale of All Software until January 8

Published on 01/04/16

Zevrix Solutions, a developer of software for graphics, print and file delivery, announces today that it has extended its holiday sale until January 8. The company offers 50% discount on all its software including product bundles. Zevrix makes several prepress automation plug-ins for Adobe InDesign and Illustrator, as well as productivity solutions for PDF workflows, graphic files checkup, file sharing and delivery, and Microsoft Office output automation on Mac.

Toronto, Canada - Zevrix Solutions, a developer of software for graphics, print and file delivery, announces today that it has extended its holiday sale until January 8. The company offers 50% discount on everything in Zevrix online store including product bundles. Zevrix makes several prepress automation plug-ins for Adobe InDesign and Illustrator, as well as solutions for graphic files checkup, PDF workflows and automated file delivery.

LinkOptimizer, the company's flagship product for InDesign, lets users reduce linked graphics size by eliminating excess image data, perform image adjustments and convert file formats. The software automatically scales and crops the images in Photoshop to match their dimensions in InDesign, changes resolution to the specified target, and reimports images to InDesign at 100%.

Output Factory is another InDesign plug-in which lets users automate printing and exporting. It offers batch output, layer versioning, variable file names, output as single pages, automatic preflighting and much more. Zevrix also makes InPreflight which can automatically package multiple InDesign files into a single folder, which lets users save significant disk space and production time.

Zevrix PDF workflow automation tools include PDF Checkpoint, a solution to preflight and convert PDF files in batches, and BatchOutput PDF which automatically prints PDFs from watched hot folders. The company also makes BatchOutput Office, a suite of output automation tools for Microsoft Word, Excel and PowerPoint.

The line of Zevrix products also features Deliver - a file transfer program which automates delivery to FTP, SFTP, Amazon S3, WebDAV and other remote and local servers. The software offers hot folder processing, automatic email notifications, file compression and encryption, and detailed delivery history.

Pricing and Availability:

Zevrix software can be purchased at 50% off from Zevrix website until January 8. For details, please visit zevrix.com. Product trials are also available for download. All Zevrix products require Mac OS X 10.6-10.11; InDesign and Illustrator solutions require Adobe CS3-CC 2015; software for Microsoft Office require Office 2008, 2011 or 2016.
