Pittsburgh, Pennsylvania - AppAvenger today is proud to announce the release of Truck Stops Pro 3.0, a major upgrade to their popular travel app for iOS devices. Truck Stops Pro is a professionally targeted application, aimed squarely at the Professional OTR driver. Though the app has found popular audience with RV owners and some in the general public as well. Providing location and information that drivers need including information on truck stops, rest areas, weigh stations, Scale Location and over 9000 potential overnight parking locations.

"For nearly 4 years, Truck Stop Pro has been proud to offer iOS users the best, most reliable Truck Stop App available," explained Sean Peck, owner of Pittsburgh-based AppAvenger. "With this release we finally add Trip Planning functionality to our services. Simply enter your start and end points, select the route you between the points you wish to travel, and from that point forward, only information along that route be presented. This will allow our users to better plan their trips and be more efficient drivers."

New 3.0 Features:

Truck Stops Pro now includes a handy Route/Trip Planner. Enter start and ending locations, choose from multiple routes offered between them and only items along the route will be displayed to help users better their stops and parking. All information is delivered in a simple to use, visually map centric, and single finger interface. Additionally, landscape support was added for iPad, as well as major data updates.

AppAvenger is very pleased to offer these updates to their existing and future users, and will continue working to keep Truck Stops Pro the most useful, accurate and relevant app that it can be for drivers. The company believes that providing the right information at the right time to drivers, in the most efficient and simple way is what has always set us apart, and will continue to do so.
