

Award-Winning Dominoes Pro Challenges You to Become the Dominoes Guru

Published on 02/08/16

Mobile game developer Maysalward, in collaboration with Canadian-based Publisher Magmic, announces Dominoes Pro 5.1, an update to their award-winning casual game for iOS devices. Dominoes Pro is the ultimate classic board game with its new themes, improved intuitive interface and plenty of features. Play straight six dominoes and be the first to set and double. Choose to play a game of points or a set of 1, 6, 12 or 20 rounds. Players can challenge their Facebook and Game Center friends as well.

Amman, Jordan - Mobile game developer, Maysalward is proud to announce the worldwide release of an update to their award-winning casual game, Dominoes Pro, adding new content and features. Produced in collaboration with premiere publisher of mobile social games and houses global brands by Mattel the Canadian-based Publisher: Magmic, the partnership aims to bring Dominoes Pro to a wider global audience by utilizing the strength of Magmic in North America.

Dominoes Pro is the ultimate classic board game with its new themes, improved intuitive interface and plenty of features. Play straight six dominoes and be the first to set and double. Choose to play a game of points (100 or 250) or a set of 1, 6, 12 or 20 rounds. You can challenge you Facebook and Game Center friends, and brag about your scores and achievements on social media. Dominoes Pro offers something for everyone and includes seven fantastic themes and power-up actions such as X-ray vision and Dominoes bones Swap.

The games built-in shop provides a host of cool upgrades adding to the fun and improving the overall play. Go from amateur to pro if you can, and test your memory skills in the unique challenge mode.

"Through this partnership with Magmic, we look forward to expanding the reach of Dominoes Pro to a wider audience in North America," Nour Khrais CEO and Founder of Maysalward explained the importance of this collaboration with Magmic. "We needed an experienced Publisher to work in close partnership with us in building better In-Game Monetisation models and help us acquire more users in tier 1 countries."
