

TouchCopy Enables Printing of iPhone SMS as a Valentine's Day Gift Idea

Published on 02/12/16

For those that are looking for an unusual Valentine's Day gift, Wide Angle Software have come up with a novel idea. How about printing the iPhone SMS, iMessage and WhatsApp messages of love you have expressed to each other over time and present them to your Valentine in any manner you wish. This is easy to do with their TouchCopy software. TouchCopy will save your messages from your iPhone to your PC or Mac. From there you can send the messages to your printer.

Stafford, United Kingdom - Wide Angle Software, a leading developer of media management software, announced today the new feature for TouchCopy, their essential backup and recovery software for iPods, iPhones and iPads. Now you can print all your iPhone SMS, iMessage and WhatsApp messages conversations directly from your iPhone with TouchCopy.

This is particularly useful on Valentine's Day, coming up at the weekend, as it provides a means of printing conversations you have had with a loved since you have started seeing each other and presenting this to them as an unusual and interesting gift.

Here is a step-by-step guide on how to print iPhone conversations:

- * Download TouchCopy to your PC or Mac
- * Run TouchCopy and connect your iPhone to your PC or Mac
- * Connect your iPhone to your Mac or PC using a USB cable - Wait for TouchCopy to detect and read your iPhone
- * Click on the Messages icon in TouchCopy
- * Select your Valentine from the contacts list
- * TouchCopy will display a list of all the contacts and groups you have had conversations with over SMS, iMessage or WhatsApp. Select your Valentine from the list
- * Click "Print" - TouchCopy prints the conversation directly to your printer
- * Alternatively, Click "Copy Conversation" - TouchCopy saves your conversation to your computer in HTML format that can be opened in any web browser
- * TouchCopy saves all the text messages and pictures you have sent and received

TouchCopy also keeps your other iPhone, iPod and iPad data safe from loss and damage, by backing up and protecting your investment in music and playlists by transferring them all from your iOS device to a Mac or PC for safe-keeping. As well as being able to retrieve your music files, TouchCopy will save your iPod, iPhone and iPad videos, photos, iOS Apps and eBooks to your iTunes library safely. You can also copy other audio content such as Audiobooks, Podcasts and iPhone ringtones, as backup your iPhone voice mails and call logs.

Special Offer - 20% Off Discount until February 29, 2016:

From February 12th - February 29, 2016, TouchCopy is available at a special Valentine's discount of 20% off for \$23.99 USD (normally priced at \$29.99), use promo code: SAVE20 at checkout. TouchCopy comes with a thirty day money back guarantee and free customer support

and is also available for download as a free trial. It works with all iPhones, iPods, and iPads and is available for both Windows and Mac OSX. The purchase of the software license allows users unlimited use of the software, with free upgrades for life.
