

3DWeather - Unique Weather App for Mac Gets Updated with New FREE Themes

Published on 04/07/16

Inspiring-Life Technologies announces 3DWeather 1.8, the first update of their weather application for Mac OS X. It is a simple weather app with a unique approach. It shows basic weather statistics in a small 3D animated widget. This is one of the coolest weather apps one can find in the Mac App Store to date. And this update makes it more worthy as a weather app. This update brings bug fixes, major improvements and brands new themes which will be available for free.

Kolkata, India - Inspiring-Life Technologies is excited to announce the release of 3DWeather 1.8, the first update of their weather application for Mac OS X. The app is available in the App Store under the category of Weather. This is one of the coolest weather apps one can find in the Mac App Store to date. And this update made it more worthy as a weather app. This update brings bug fixes, major improvements and brands new themes which will be available for free.

It is a simple weather app with a unique approach. It shows basic weather statistics into a small 3D animated widget. The cool part is that it prepares the weather animation depending upon the weather condition. It has introduced a new approach to displaying weather info which is both informative and delightful to look at.

APP HIGHLIGHTS:

- * Save up to 10 locations in the app.
- * Open app at login.
- * Browse weather forecast from Menu Bar.
- * Use weather icon in dock with temperature status.
- * Float widget on top of everything in Desktop.
- * Adjust transparency of widget.
- * Choose from four different widget sizes.
- * Get weather alert in Notification Center with sound.
- * Get feeds from other weather info provider and use it in the app.
- * Change weather icons from 2 different icon sets that is available in the app.
- * View weather info and forecast in Window Style and view it in fullscreen from there.
- * Free future updates with new themes guaranteed.

So, update 3DWeather today and get your hands on to these stunning new themes. If you have not downloaded the app yet, do it today. Why read out weather statistics when you can visualize it.
