

Org.ly for iPhone - Re-imagining Org Charts for Sales Professionals

Published on 04/12/16

UK based SLiCK Concepts Ltd introduces Org.ly 1.1, a brand new contact management and org chart app developed for iOS. Aimed squarely at sales professionals, Org.ly re-imagines the creation of org charts. You don't have to create the org chart, Org.ly does it for you automatically. You simply organise your contacts into the company hierarchy and the org chart is created. Even better, you can swipe up and down on a contact to instantly see who a contact reports to, and who reports to them.

Oxford, United Kingdom - SLiCK Concepts Ltd is proud to announce the release of Org.ly 1.1, a brand new contact management and org chart app developed for iPhone(R). Org.ly automatically creates the Org Chart for you, so you no longer have to spend hours doing it yourself.

Made for Sales Professionals by a Sales Professional:

Frustrated by the current solutions for creating Org Charts required for insertion in Account Plans, etc. Steve Brigden, founder of SLiCK Concepts, inventor of Org.ly and a sales professional with more than thirty years experience, set out to make an app that simplified this process.

Why Org.ly is better:

Simplicity. Org.ly re-imagines creating Org Charts by using the contact details we carry around with us in our phones and leveraging the touch and gesture controls provided by Apple devices to make managing your contacts and creating Org Charts a real pleasure. Other Org Chart apps simply try to re-create the Powerpoint experience on a mobile device, creating a poor mobile experience to rival the poor desktop experience.

Key Features:

- * You don't create the Org Chart, Org.ly does it for you - automatically
- * You swipe to connect contacts to their manager from within Org.ly - that's it
- * You have immediate visibility of who reports to whom - all via a swipe on the iPhone(R) screen
- * Update the information on the fly - your Org Charts are always up to date
- * Easy export of the Org Chart for inclusion in Account Plans, etc.

"Traditional methods for creating Org Charts are really painful - drawing boxes, connecting them together with lines, typing in names, aligning, re-arranging, aligning again. It is rubbish," explained Steve Brigden, founder of Oxford based SLiCK Concepts Ltd. "Technology has moved on - it's about time that Org Charts caught up."

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 8.0 or later
- * 14.4 MB

Pricing and Availability:

Org.ly 1.1 is \$3.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Productivity category. Promotional Codes are available to journalists. Contact Steve Brigden to request one.
