

Map List - An iOS app to create lists of favorite locations

Published on 04/18/16

Melbourne based developers, The Lim brothers today introduce Map List 1.0, an iOS app that allows users to create lists of their favorite locations. Aimed at users who like to be organised, Map List can help users track locations of any type of place, for example their favourite restaurants to try, bars, or friends places. Simply search for the name or type of place and add it directly to the list. This simple app also allows users to add notes, ratings & other details for each saved location.

Melbourne, Australia - The Lim brothers are pleased to announce the release of Map List 1.0 today, an iOS app that allows users to create lists of their favorite locations. Aimed at users who like to be organised, Map List can help users track locations of any type of place, for example their favourite restaurants to try, bars, or friends places. Simply search for the name or type of place and add it directly to the list. This simple app also allows users to add notes, ratings, and other details for each saved location.
