

Capto - Powerful New Screen Recording and Video Editing App for Mac OS X

Published on 04/27/16

Global Delight today introduces Capto, an end-to-end screen capturing and video-editing app for Mac OS X. Designed specifically to make quick, detailed, and informative videos and images using onscreen content, Capto offers HD screen recording, versatile image and webpage capturing, in-app video-editing tools, file management & convenient sharing options. A single editing timeline along with the ability to add details like arrows, spotlight, text, blur and more makes Capto the go-to capture app.

Udupi, India - Global Delight today is thrilled to announce the release of Capto, an end-to-end screen capturing and video-editing app for Mac OS X. Designed specifically to make quick, detailed, and informative videos and images using onscreen content, Capto offers HD screen recording, versatile image and webpage capturing, in-app video-editing tools, smart file management, and convenient sharing options.

Capto has been built from scratch and is made to equip everyday users with the ability to create professional looking videos from screen recordings. The app records in HD at 60 FPS, which can then be instantly edited. A single editing timeline along with the ability to add details like arrows, spotlight, text, blur, and more makes Capto the go-to capture app. Capto also allows users to crop, trim, cut, and import outside clips, making it the easiest video editing experience for daily users.

Capto includes a variety of image editing options to enhance and annotate screenshots. Add text, callouts, annotations etc. to create informative images in a custom canvas that acts as a personal workspace. Filing and storage of captured images and videos are taken care of by Capto's smart organizer that is directed by an intelligent folder system. All captures are sorted according to parameters that can be defined by users. To share these captures online, users simply need to set up their accounts once and Capto uploads them to Facebook, YouTube, Dropbox, Evernote etc. at the click of a button.

Some Of Capto's features:

- * Fullscreen and Region Recording | Audio Recording | Timed Recording
- * Video Editing | Annotations
- * Fullscreen and Selection Capture | Webpage Capture
- * Image Editing | Annotations
- * Smart Collection Folder | File information
- * Online Platform Sharing | Server Sharing

"The new Capto is a modern and fully featured screen capture app that comes with an easy video editor to help everyone post-process screen recordings," said Mr. Guruprasad Kamath, director of marketing. "By being built with the latest OS X technologies and catering to content creation like Professional Tutorials, Vlogs, Educational Lessons, Design Concepts and more, users can be assured of a high standard of screen capture videos."

System Requirements:

Capto is designed and engineered for OS X 10.10.5 (Yosemite) and 10.11 (El Capitan).

Pricing and Availability:

Capto is an all-new app that can be purchased for \$29.99 (USD) from the Global Delight Webstore and Mac App Store. Students & Educators can receive a special discounted price of \$19.99. There is also an upgrade program for Voila and Boom 2 customers who can receive up to 50% off on our store. To receive a free 15-day trial and more, visit Global Delight website.
