

Take Out 50 Levels Of Trash In Arcade Runner MOP: Operation Cleanup

Published on 05/02/16

Ensenasoft introduces MOP: Operation Cleanup 1.0.0, its action-packed arcade runner for Mac OS X. Engineered using simple parts, MOP is a curious and unique model of robot with one single objective: clean up a polluted environment. To save the world players must sweep the area for trash and run, jump, swim and slide their way through each world, destroying enemies and obstacles blocking their path. Explore five challenging worlds with 50 difficult missions full of pixel-perfect platforming fun.

Mexico City, Mexico - Ensenasoft, an award-winning game developer and publisher, is proud to announce the worldwide release of MOP: Operation Cleanup 1.0.0, its new action-packed arcade runner for Mac OS X. MOP: Operation Cleanup is aimed at pixel-perfect purists seeking the ultimate radiation thrill of a highly addictive game. You are MOP, a curious and unique model of robot. You have been engineered using simple parts with one single objective: To clean up a polluted environment.

Explore five challenging worlds with 50 difficult missions full of pixel-perfect platforming fun. Ordinary trash items have mutated into ugly creatures due to contact with radioactive and malignant substances. The foul odor is polluting and contaminating what remains. To save the world you must sweep the area for trash and run, jump, swim and slide your way through each world, destroying enemies and obstacles blocking your path. Levels contain surprises, traps and hidden areas to discover. Be sure to watch out for the grumpy bears, electric toasters, zombie turtles and even mutated socks trying to get you!

System Requirements:

- * OS X 10.6.6 or later
- * 136 MB

Pricing and Availability:

MOP: Operation Cleanup 1.0.0 is \$4.99 USD (or equivalent amount in other currencies) and available worldwide through the Mac App Store in the Games category. Journalists interested in further information, additional assets or a redeemable key for review are welcome to contact Ensenasoft by sending an email to Hans Olsen.
