

## LinkOptimizer 4.9.60 for Adobe InDesign Improves Image Preview Handling

Published on 05/09/16

Zevrix Solutions announces LinkOptimizer 4.9.60, a maintenance update to its workflow automation solution for Adobe InDesign. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer allows to automatically reduce the size of InDesign picture links and speed up processing by eliminating excess image data, performing essential image adjustments and converting image formats. The new version addresses several issues related to image preview handling and link list management.

Toronto (ON) Canada - Zevrix Solutions today announces the release of LinkOptimizer 4.9.37, a maintenance update to its workflow automation solution for Adobe InDesign. Awarded 4 out of 5 stars by Computer Arts magazine, LinkOptimizer automates complex image manipulation tasks allowing users to significantly reduce the size of InDesign links, save processing time and reduce production costs.

The new version addresses an issue in which the previews for color images could be rendered in grayscale under some rare conditions. The update also fixes an error where the sort order for ignored links was incorrect when sorted by file size, as well as some other minor performance and usability glitches.

"LinkOptimizer makes me extremely happy", says Nynke Tiekstra, the owner of design studio ColtsfootMedia in Friesland, Netherlands, "It converted 10000 images in a 1800 pages project saving us at least 40 hours work, and it proved to be 100% accurate."

LinkOptimizer works automatically with Photoshop to eliminate the excess image data of InDesign links, perform essential image adjustments and convert image formats. For example, with just a click of a button users can:

- \* Scale and crop images to match their dimensions in InDesign
- \* Change resolution to 300 dpi
- \* Convert RGB images to CMYK with specific ICC profile
- \* Resave JPEG images as PSD
- \* Run a Photoshop Action on each image

As a result, users can save gigabytes of disk space, accelerate document output, reduce job turnaround and cut costs through faster processing.

### Pricing and Availability:

LinkOptimizer can be purchased from Zevrix website for \$259.95 USD (Light version: \$179.95) as well as from authorized resellers and Adobe Exchange. Trial is also available for download. The update is free for LinkOptimizer 4.x users and \$130 to upgrade from previous versions. LinkOptimizer requires Mac OS X 10.6-10.11 and Adobe InDesign and Photoshop CS3-CC 2015.
