

Four New Destination Releases from Global Dive Guide

Published on 05/16/16

Global Divers Unlimited LLP releases Global Dive Guide 1.2.1, an update to their popular destination library for iOS and Android. Global Dive Guide enables divers to experience new destinations and plan their dive trips with information at their fingertips. Global Dive Guide now includes four new destinations. Utila, Similans, Cozumel and The Netherlands contain full site descriptions, maps, tide charts and over 500 images. Users can share their dive adventures through Facebook and Instagram.

Newquay, United Kingdom - Global Divers Unlimited LLP is proud to announce the release of Global Dive Guide 1.2.1, an update to the company's popular destination library developed for iOS and Android devices. Global Dive Guide aims to inspire and enthuse the diving community, enabling users to experience new destinations and plan their dive trips with information at their fingertips. The app invites users to interact by sharing their dive adventures through Facebook and Instagram.

In this release, Global Divers Unlimited LLP has partnered up with local dive centres, divers and underwater photographers the latest dive destinations. Global Dive Guide now includes four new destinations, including The Netherlands, their latest European destination, the Similans, which is their first Asian destination and finally Utila and Cozumel that together expand their destinations for Central America.

"Our company is very excited to release our latest destination destinations in an app that combines accurate, real-time information with high definition imagery; streamlining dive travel and dive planning in a unique way. explains Kim Davidsson, Partner, Business Development at Global Divers Unlimited LLP. "In order to maintain the quality of our product we will be innovative and creative, aligning ourselves with professional partners who understand that knowledge and experience are our key assets. We will continuously improve our product, keeping our destinations inspiring and our users engaged."

Once downloaded from the App Store, the Global Dive Guide start screen will provide the user with a list of destinations to choose from, including the most recent releases and a list of what is currently under construction and coming soon. A complimentary site for each destination is available to users immediately for their perusal where they are able to obtain informative and instructive dive site data including a full site description together with depth range, average dive time, dangers to be observed and a comprehensive list of marine life to assist in their dive planning.

An image gallery provides a visual overview of the dive site characteristics and marine life, whilst land and topside images presents the user with a visual reference of the local area to assist with travel logistics. Unlock the full destination for the complete site guide where each site is accompanied by a photograph and a brief site summary for quick review. Also available at the destination list screen is a comprehensive safety page advocating safe diving procedures accompanied by high definition images.

In addition, a concise overview of the local area provides informative dive travel data including how to get there, seasonal differences, climate advice, water temperature, minimum exposure protection requirements, average dive site depths, marine park fee advice, recompression chamber information and nitrox availability. An image gallery of selected images taken from the destination gallery is also available.
