

## **Noteboom Productions Introduces Tutor for Microsoft Excel**

Published on 05/17/16

Noteboom Productions, Ltd. today introduces Tutor for Microsoft Excel, their latest video tutorial for the Mac. Tutor for Microsoft Excel consists of 49 easy-to-follow video lessons designed to give users a better understanding of how to effectively use Microsoft Excel on the Mac. It includes lessons on the interface to Excel, working with workbooks and worksheets, adding objects like charts and pictures, working with data connections, and printing sharing options.

Holland, Michigan - Noteboom Productions, Ltd. today is proud to announce the release of Tutor for Microsoft Excel, their latest video tutorial for the Mac is now available. Tutor for Microsoft Excel consists of 49 easy-to-follow video lessons designed to give users a better understanding of how to effectively use Microsoft Excel on the Mac.

Tutor for Microsoft Excel covers various subjects including using ribbon tabs, saving a workbook as a template, autofilling cells, adding cells, working with headers and footers, formatting cells, creating data connections, setting the print area, and sharing workbooks.

This new tutorial is included with a membership to NoteboomTutorials online. Membership is subscription based and includes access to tutorials on OS X iMovie, OS X Photos, OS X Calendar, and various tutorials for the iPad and iPhone. Membership also includes access to new tutorials as they are released. Users can watch the tutorials on any device - Mac, iPad, or iPhone. The site tracks the tutorials users are enrolled in as well as a user's progress by tracking individual lessons as they are viewed.

"We are excited to add Tutor for Microsoft Excel to our catalog of tutorials, said Dan Wassink, President of Noteboom Productions, Ltd. "We work hard to explain all of the features of Microsoft Excel in simple terms and video demonstrations. Our tutorials have been well received so far as our existing tutorials have had over 200,000 downloads in the App Store as well as nearly 650 five-star ratings. We look forward to helping many more people use their Macs more effectively with this latest tutorial - Tutor for Microsoft Excel."
