

## ShotList 8.0 brings order to chaos for movie shoots

Published on 05/19/16

UK based Soluble Apps today announces ShotList 8.0, the latest update to their unique planning and tracking app for film and video makers. ShotList replicates a full production strip board system on your iPhone or iPad. Track and schedule scripted drama, commercial shoots, radio production or videogame motion capture shoots from your mobile device. Version 8 adds multitasking, large screen size support and lots of tweaks and fixes.

Newcastle upon Tyne, United Kingdom - Soluble Apps today is very pleased to announce the release and immediate availability of ShotList 8.0, the latest update to their unique planning and tracking app for film and video makers on iPhone and iPad. ShotList replicates a full production stripboard system. As well as helping to plan the best shooting order, the app becomes a daily "To do" list, keeping essential notes and storyboards in your pocket, and helping track progress on the day of the shoot.

If something unexpected happens during the shoot such as weather, location or cast availability problems) Shotlist makes it easy to rapidly rearrange the shooting order on the spot, and email a full-colour revised schedule to the entire team in a few taps from your mobile device.

This new version of ShotList includes full support for split screen and slide over multitasking, and optimisations for the larger screens on iPad Pro, in addition to usability enhancements and tweaks throughout the app.

ShotList enables you to:

- \* Track and schedule scripted drama, commercial shoots, radio production or videogame motion capture shoots from your mobile device
- \* Add, edit, delete or re-order scenes across a multi-day shoot
- \* Store storyboard frames or reference images and details for up to 26 shots per scene
- \* Keep everyone informed by printing updates directly from the app, or sending updates by email to the team
- \* Backup or exchange updated project files wirelessly with other devices and ShotList users using Dropbox(TM)

ShotList was developed with the assistance of Northern Film and Media.

Device Requirements:

- \* iPhone, iPad, or iPod touch
- \* Requires iOS 8.0 or later
- \* Universal app optimized for display on all iOS devices
- \* 10.5 MB

Pricing and Availability:

ShotList 8.0 is \$9.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Photo & Video category.
