

KidloLand App For Kids Crosses 4 Million Downloads

Published on 05/27/16

Internet Design Zone today announced that their KidloLand Nursery Rhymes For Kids app has officially crossed the 4 Million downloads milestone. One of the best apps for kids with over 95 interactive nursery rhymes and educational songs, KidloLand offers more than 165 original educational songs to introduce kids to fruits, animals, vegetables, birds, water animals, ABC alphabet and much more. In over two years, KidloLand app has evolved into a complete toddler and preschool package.

Mumbai, India - Internet Design Zone, developer of KidloLand Nursery Rhymes For Kids, is pleased to announce that the app KidloLand has crossed the milestone 4 Million downloads. In May 2016, the app crossed 2 Million downloads each on iOS and Google Play. In over two years, KidloLand app has evolved into a complete toddler and preschool package. It also won the Spring 2016 Academics' Choice Smart Media Award this May.

KidloLand (Nursery Rhymes for Kids) has been on the appstores since 2012 and has been a favorite with little kids and babies. Old MacDonald remains the most played song in the app having been played over 35 million times, followed by Itsy Bitsy Spider having been played over 17 million times.

Over 25 Expert Moms have given it a thumbs up in their reviews. This is what Chelsea, a Mom blogger staying in United States writes in her app review, "I love it! More importantly, my kids love it! My daughter is 1.5 and she loves the songs. My son is 3 and he sits and plays on the app for hours if we let him. There are tons of songs and activities and so many things to choose from. There is something for every kid at every learning level." Yosh from Mommy OutNumbered in Canada writes, "I think this is a great app for every parent to have on their phone for on the go; it is a perfect distraction / entertainment for a road trip, airplane ride, a grocery shopping trip, etc, if your toddlers get too bored."

The app has now been updated with educational games and hundreds of activities. Jenni, who stays in UK and blogs at Chilling With Lucas writes, "The educational activities encourage cognitive growth through games using hand eye coordination." After the app moved to a subscription model, new content has been added every month to benefit the subscribers. Currently, the app has over 260 nursery rhymes and songs and over 100 preschool games and educational activities. The app developers plan to add a lot of new content including phonics, stories, games, more nursery rhymes and songs. This will make KidloLand the ideal preschool companion for little ones.

Device Requirements:
