

Mail Designer Pro 3 - Create High Quality Responsive Emails with Ease

Published on 06/09/16

Munich based equinux today announces Mail Designer Pro 3. Absolute creative freedom with zero HTML. The Mac app for the creative design of professional HTML newsletters, now offers brilliant Retina resolution. Choose from over 500 web-fonts with all available font weights and more. The new pixel perfect graphic tools, improved real time previews, and a style refill with now more than 70 design ideas, takes creative professionals to the next level in precision and quality.

Munich, Germany - Absolute creative freedom with zero HTML. equinux today is proud to announce the release of Mail Designer Pro 3, its sharpest upgrade yet. The Mac app for the creative design of professional HTML newsletters, now offers brilliant Retina resolution. The new pixel perfect graphic tools, improved real time previews, and a style refill with now more than 70 design ideas, takes creative professionals to the next level in precision and quality.

Qualitative leap! Create high definition desktop newsletters:

- * Improved resolution to create desktop newsletters using high definition retina
- * More than 70 new inspirational, ready-to-use design ideas
- * Include full surface background art with pixel perfect positioning

Precision Push: Pixel perfect layouts and graphic elements:

- * Shape tools for creating top-notch quality newsletters
- * Choose from 500+ web-fonts with all available font weights
- * Automatic and individual suggested font-fallbacks

Unique features for a perfect style-check:

- * Realtime Inbox-Optimization for mobile devices and Apple Watch
- * Smart Design-Check: Realtime-Preview for MacBooks
- * Send stunning desktop-only emails directly from within Apple Mail

This release highlights three key features:

- * Higher picture quality for all retina devices
- * Pixel-perfect graphics tools for a more professional email design
- * Inbox Optimization, Design check and sending via Apple Mail delivery options
