

PIN Locker 3.0.1 released - Password Manager Revamped with More Features

Published on 06/29/16

Mooee Company Limited today is proud to announce the release of PIN Locker 3.0.1, an important update to its popular password utility for iPhone, iPad and iPod touch devices. PIN Locker is a very simple yet highly secure password manager. Version 3.0.1 has been redesigned from the ground up to support the latest features of iOS 9, iPhone and iPad. Uses Touch ID and include iCloud Sync. Still remained is a nicely designed, simple to use yet strongly secured password protection App.

Kowloon, Hong Kong - Mooee Company Limited today is proud to announce the release of PIN Locker 3.0.1, an important update to its popular password utility for iPhone, iPad and iPod touch devices. PIN Locker has been redesigned from the ground up to support the latest features of iOS 9, iPhone and iPad. Uses Touch ID and include iCloud Sync. Still remained is a nicely designed, simple to use yet strongly secured password protection App.

New Features:

- * iCloud Sync. You can now use your PIN Locker on your iPhones and iPads and they will be automatically synced under the same Apple ID
- * Newly designed for the iPad and support Split View
- * Supports Touch ID to unlock or you can continue to use your master password to unlock
- * Use the highest level of encryption available
- * Hide or show your password on demand

Other Features Highlight

- * Simple one click on the website address to go to the web browser immediately
- * Copy function to both password and user name, no need to remember them in order to enter into the web browser
- * Customize the labels anytime so the wordings match those of the websites'
- * PIN Locker will remember the last password before change, in case users need their old passwords again
- * Most frequently used passwords - uses a Top Ten list to quickly locate the most frequently used passwords
- * More flexible entries - Some sites require 2 passwords instead of one. PIN Locker has a dedicated field to allow user to keep a second password

Supported Languages:

- * English and Chinese

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 9.0 or later
- * 51.7 MB

Pricing and Availability:

PIN Locker 3.0.1 for iPhone/iPad is only \$5.99 (USD) and available exclusively through the App Store in the Utilities category.
