

Neoappz Introduces Text Extractor & Translator 1.0 for iOS

Published on 07/11/16

Mobile application development company, Neoappz today introduces Text Extractor & Translator 1.0, their new travel app for iOS devices. Text Extractor & Translator is a useful app which instantly extracts, translates and reads text from printed material. It is useful for travellers to understand text written in foreign languages on printed material such as restaurant menus, ads or road side bill boards. It is also useful for extracting ,saving and sharing articles from books or magazines.

Colombo, Sri Lanka - Neoappz, a mobile application development company, today is proud to announce the release and immediate availability of Text Extractor & Translator 1.0, their new travel app for iPhone, iPad and iPod touch devices. Text Extractor & Translator is a user-friendly application which allows users to instantly extract ,translate and read text from any printed material such as magazines,books, ads and road side billboards. It is helpful while traveling and also in day-today activities.

The app's auto capture and auto read features allows users to instantly get any printed text captured, extracted, translated and read out by just holding the app at any printed material. The app is very useful while traveling , as it can instantly translate text written in a foreign language on printed material such as restaurant menus, road side bill boards and even ads.

Text Extractor & Translator is helpful to extract text from magazines, news papers or books. The extracted text can be saved for later use or shared via email, sms or social media. The app also keeps track of history.

The app is also useful for people with low vision , who are unable to read small text. Users can hold the app at any text and the app will instantly capture, extract and read out the text.

Text Extractor & Translator supports over 20 recognition languages and over 90 translation languages.

Device Requirements:

- * iPhone, iPad, and iPod touch
- * Requires iOS 8.0 or later
- * 5.0 MB
