

SyncMate 6.5 with iOS 10 support is here - Get it with discount

Published on 08/02/16

Eltima Software today announces SyncMate 6.5, an improved version of their powerful synchronization tool for OS X. SyncMate will sync Mac computers with iOS and Android devices, other Macs, MTP devices, as well as with online storage accounts such as Google, Dropbox, iCloud and Windows Services, including Outlook, Office 365 Home and Business accounts. Easily mount devices as Mac disks, manage mobile SMS on Mac and lots more. The latest version of SyncMate features iOS 10 support.

Frankfurt, Germany - Eltima Software today is pleased to announce the release of SyncMate 6.5, an improved version of their powerful synchronization tool for OS X. The latest version of SyncMate allows syncing with iOS 10 and brings overall improvements to sync process. SyncMate is a powerful sync tool that allows syncing data on Mac with numerous devices and online accounts. You can sync Mac with Android and iOS devices, other Mac computers, online accounts (iCloud, Dropbox, Google), any mounted and MTP devices. Syncing with Windows services is also supported - Office 365 Home and Business accounts, Outlook, OneDrive.

SyncMate allows syncing contacts and calendars, media files (music, videos, playlists, images), folders with files, bookmarks, etc.

With SyncMate one can mount devices as Mac disks, manage mobile's SMS on Mac, and lots more.

Note, Eltima now offers SyncMate with 25% discount within the Summer sale promo.
