7.3 introduces Presentation Mode along with faster and better import of Visio generated XML drawing files. Visio has the ability to save to an XML format, with a .vdx extension, Visio users can specify that all Visio drawings they create be saved as XML files by default.

ConceptDraw 7, which supports both Mac OS X and Windows, makes the preparation of professional business graphics easy for individuals regardless of drawing skill level. ConceptDraw 7 gives users the ability to create sophisticated and professional looking organization charts, flowcharts and compelling business graphics as well the ability to construct network and database diagrams.

Oleg Bocharnikov, Head of Product Management for CS Odessa, notes, "Our customers are continually asking for a better way to import .vdx files and for handy tool for presenting their business graphics to others. With ConceptDraw 7.3 we have taken a big step towards satisfying those requests. ConceptDraw products are focused on helping knowledge workers in any size organization be more efficient in the work they do. We see this change in functionality as being beneficial to our customers."

With the release of ConceptDraw 7.3 now all users will benefit with the addition of Dynamic Help and a greatly improved HTML export that was introduced on the Macintosh in release 7.2 of ConceptDraw 7. All users of ConceptDraw 7.x will be able to receive a no charge upgrade to version 7.3.
